### BIKE PARK TRAIL DIFFICULTY

#### EASIEST

Gentle climbs and descents, with obstacles such as rocks, gravel, roots, bridges, and pot holes. Must have ridden a bike before using these trails.

#### INTERMEDIATE

Challenging riding with steep slopes and/or obstacles, possibly on narrow trail or elevated skills park with poor traction. Requires off road riding experience.

#### ADVANCED

These trails and skills centre have a mixture of long steep descents, loose trail surfaces, numerous natural and manmade obstacles. Including: jumps, ramps, elevated features, berms, drops, rocks, and other terrain variations.

#### EXPERT ONLY

Without exception, expert mountain bikers should be the only riders on these trails and in these skills centres. Some of the elements you will encounter include: large manmade and natural jumps, wood ramps, elevated narrow trails, drops, rock faces, and other terrain variations.
